NET, Microsoft Office, Sun Microsystems, Linux and many more. It has a lot of different features to choose from, ranging from simple to advanced. You can use Keyfinder to find product keys, serial numbers, key types and also uninstall and reinstall key from computers, removable devices and Internet Explorer. As a user, you are generally not expected to save product keys or system information. However, in some situations it might be important. If you receive a message asking you to enter your product key or you want to backup your product key, or you want to be able to restore the product key, this is where Keyfinder comes into play. Keyfinder lets you find, recover, backup and even completely uninstall product keys, making it easy to retrieve your information. Keyfinder works on any Windows XP, Vista or Windows 7 system. Keyfinder Key Types: Enter any or all of these key types to see what you're looking for 32 bit Product Keys 64 bit Product Keys Virus Protection Keys Serial Numbers Product Key Generator Key Product Key Tools Uninstall Key Install Key Hard Drive Serial Number System Requirements: Win XP, Vista, Windows 7 C:\Program Files\Keyfinder\Install.ini Installing Keyfinder If you wish to install Keyfinder on your Windows computer, you must download and install the Keyfinder application. You must download the installer. Note: When you install Keyfinder, the installer will also install other programs to help you find the product key, serial number, keys and etc. Make sure you have a backup of the \Windows\System32\config\software folder before installing Keyfinder. This is the folder that stores product keys and other data. It can be stored on any media as long as you know where it is, but it's recommended to make a back up. This is a prerequisite of Keyfinder. It is the folder where the keys and other data are stored. If this folder is not there, Keyfinder will not be able to function properly. The easiest way to install Keyfinder is by using the .EXE installer. It does not require that you have administrator rights. However, if you do have access to the administrator account, you can use the [Self-Extracting Archive] (.exe) installer. To use the .EXE or .EXE 82157476af
